

Selectmen's Meeting

June 16, 2009

All Selectmen present

Meeting started at 7:00PM

PJ Blanchard was in to see if the Selectmen had any update on 4-wheelers using some of the town roads. Bruce said he had talked to an Attorney at the Local Government Center about this. They said that we could open up roads to 4-wheelers but it was not recommended. In order to do so you have to have a public meeting to discuss it first, but the discussion can be made by the Selectmen after the meeting. The Selectmen felt that they would like to meet with Mark Ober from Fish and Game to discuss the pros and cons to this before having a public meeting. PJ thought this was a good idea.

The Selectmen signed manifests, a request to transfer \$725,000.00 from Woodsville Bank to the PDIP account, and a letter authorizing the Trustee's to pay George Sansoucy \$225.00 from the Assessing Fund.

The new well is now up and running, the water from this well will be blended with the water in the other wells. We still have a few things to do but the well can be used now.

Carl Johnson came in to talk to the Selectmen about the roof job at the school. The School has awarded the bid to Lawton, they came in the lowest at \$231,572.52, and the other two bids were from Trumble Nelson and E. F. Wall. Lawton will be starting the job on Monday, June 22 and they need to have the job finished by August 26th or they will be paying the school \$750.00 for each day after that. If they have enough money when they finish the roof and alarm system they would like to insulate the ceiling in the whole building. While looking at this job they discovered that there is only about three inches of insulation in the ceiling. They would also like to paint the cupola.

Steve Sherman and Eileen Brown came in to talk to the Selectmen about having a Community Fall Festival the weekend of October 2nd. They would like to get the whole town involved and have it be like an Old Home Day. They would like to have a parade, children's activities, a lunch possibly put on by the Men's Club and a Chicken BBQ dinner put on by the church. They are talking about a bon fire in the evening with a band and maybe some fireworks. They have some great ideas and it looks like a great weekend.

The Power Company is going to donate a pole for the town to use at the skating rink to put a light on. The light will be on a timer so it won't be on all night. The old building by the Post Office was emptied out today and the Town Crew is going to try to move it down by the Skating rink to be used as a warming shack.

If anyone is interested in updating the Monroe Town History please contact Cindy Frazer at the Town Hall at 638-2644. Once we know who is interested we will set up a meeting to discuss how to go about doing this.

Meeting adjourned at 10:00 PM
