

Selectmen's Meeting

March 30, 2010

Bruce Frazer and Bob Wormer Present

Public: Barry Nelson

Meeting started at 7:00P.M.

The Selectmen signed the manifest, they also had Cindy sign the contract with LGC for the Workman's Comp. Insurance. The Selectmen signed the updated Cemetery Rules. This makes it so people that do not live in the Town of Monroe can buy one two body lot only.

Jeff Gomes was in to see the Selectmen about doing some work on the pumps at the well house. They had discussed a while ago about putting the pumps on an automatic system so that no one has to go in and change which well we are using. At this point Butch goes in and changes from one well to another as needed. Butch and Jeff have discussed this and have figured out the best way to do it. The Selectmen asked Jeff to bring them estimates on two different plans. Bruce did let Bob and Jeff know that a tree had fallen on the well house Monday night and put a hole through the roof. Bruce had talked to Rick Ward about looking at it as Rick & Jeremy Ward had put the roof on last summer. Bruce and Bob decided to have the Ward boys fix the roof as soon as possible. When the tree came down we were without power at the well house for a period of time as it also took down the power line.

Gary Spence was in to see the Selectmen to let them know that he is going to be taking down the "woodpecker's" tree that is on the property line between his place and the town hall. He will let the Selectmen know when this is going to happen.

Merle Jones was in with stewardship paperwork for his current use.

Keith Merchand brought in an estimate from Bill Lang for putting drainage around the clinic. Keith does recommend having the job done this way.

The Selectmen approved a Veterans Credit for David Boulanger; they also signed a building permit for Mike and Catherine Sabens

Cindy let the Selectmen know that at this point we have no one to do the swimming program. They suggested getting hold of Eileen Brown and see if she would like to do it, if not put an ad on the Monroe Town web site and in the Bridge Weekly.

The Selectmen went over the audit report that the state did on the Town Clerk's Office.

Barry Nelson said he had received a call from the Joe Kennedy Foundation about putting wind towers on his land. He was wondering what the people in town thought about them. He thought that maybe he would get hold of other land owners in town and discuss it with them.

Meeting adjourned at 9:20 P.M.

Respectfully Submitted;

Cindy Frazer, Administrative Assistant
